Capital Construction Program

The Board may submit to voters, on any election date specified in Oregon Revised Statutes, the question of contracting a bonded indebtedness to build or renovate district facilities. Before such a bond election, the specific needs for facilities will be communicated to the public.

All new construction or alternations to existing facilities will ensure to the maximum extent feasible that facilities are readily accessible and usable by individuals with disabilities.

Following approval by the voters, the bonds to be issued will be advertised appropriately. The date of issue will be coordinated with tax collection dates, payments on bonds already outstanding and favorable market conditions. Disposition of the bonds may be accomplished by public sale on a competitive bid or negotiated basis, as determined by the Board. The Board reserves the right to reject any and all bids.

The Board will annually appropriate district funds in the bonded debt service fund for the purpose of paying interest and principal on outstanding bonds. If sufficient funds are not available in the debt service fund, the Board will authorized by resolution an interfund loan for the purpose of meeting debt service requirements.

The capital projects fund is the fund authorized by the approval of the bond issue. Initial receipts from the sale of bonds are deposited in this fund and actual expenditures are made from it. The Board will adopt an annual budget resolution authorizing withdrawal from the fund of the amounts needed to meet payments due architects, contractors and other individuals or firms. The Board will receive periodic reports on expenditures made from this fund as compared with original appropriations for various projects.
