Admission of Nonresident Students

The superintendent reserves the right to accept/reject nonresident students based upon the availability of space, resources, personnel, appropriate programs and a positive review of educational records.

The superintendent may consider situations such as:

1. Students with unusual academic needs or abilities that can be met more readily by school services available in a nonresident school district;
2. Students living in remote areas whose school transportation can be met more conveniently and efficiently by the nonresident school district;
3. Students with unusual disciplinary or emotional problems who would have a greater ability to succeed in the environment of the nonresident school district;
4. Students whose parents move from the district during a school year; and
5. Students whose parents are employed within the nonresident district.

The Board shall deny regular school admission to nonresident students who are under expulsion from another school district for a weapons policy violation. The Board may, based on district criteria deny admission to nonresident students who are under expulsion from another district for reasons other than a weapons policy violation.

The district may enroll nonresident students as follows:

1. By written consent of the affected school boards. The student becomes a “resident student” of the attending district thereby allowing the attending district to receive State School Fund moneys;
2. By unilaterally admitting with tuition a nonresident student whereby neither district is eligible for State School Fund moneys;

3. If a juvenile court determines it is in the student's best interest, a student placed in a substitute care program outside the district will continue to be considered a resident student and allowed to attend the school the student attended prior to placement. The public agency placing the student in a substitute care program will be responsible for the transportation of the student, if public agency funds are available.
